HID Approve Token Registration

Q & A

# Introduction

Following the successful merger of Ex\_CBA and Ex\_NIC Banks to form NCBA Bank Kenya PLC, we have consolidated our systems to ensure we effectively manage all our transactions and interactions through a singular internet banking product offering.

All customer accounts will be hosted in the same core banking system for an efficient and customer centric platform.

# What Remains Unchanged

# What Remains Unchanged

- Web-based system accessed by users through any internet enabled devices (mobile phones, Tablets, Computers).
- System access credentials (USER NAME AND PASSWORD) hence no need to re-apply for the service.
- Two-factor authentication: System access requires PIN input to generate One Time Password (OTP).
- Encryption: Transactional data between bank & client is protected using HTTPS traffic secured by Symantec.
- Capability to maintain multiple system users and definition of their rights & limits by role, account or amount, workflow approval in line with the prevailing account mandate.
- Bulk payment processing

# What Has Changed

# 1. Introduction of HID Approve Token

- HID Approve is a multi-factor authentication solution from HID Global that delivers a simple and secure way for transaction validation and authentication using Push notification.
- HID Approve enables generation of one-time secure codes for strong authentication for offline use.
- Secure activation by scanning a QR code.

- Current HID soft token

- New HID approve

## 2. User Self Registration

- Token activation and management will be done on the users end vis Self service portal
- Current soft token will require a fresh download and activation to work.
- Hard/Physical token users will log in normally and will only use SSP in case the hard token is out of sync.

# 3. New Account Numbers

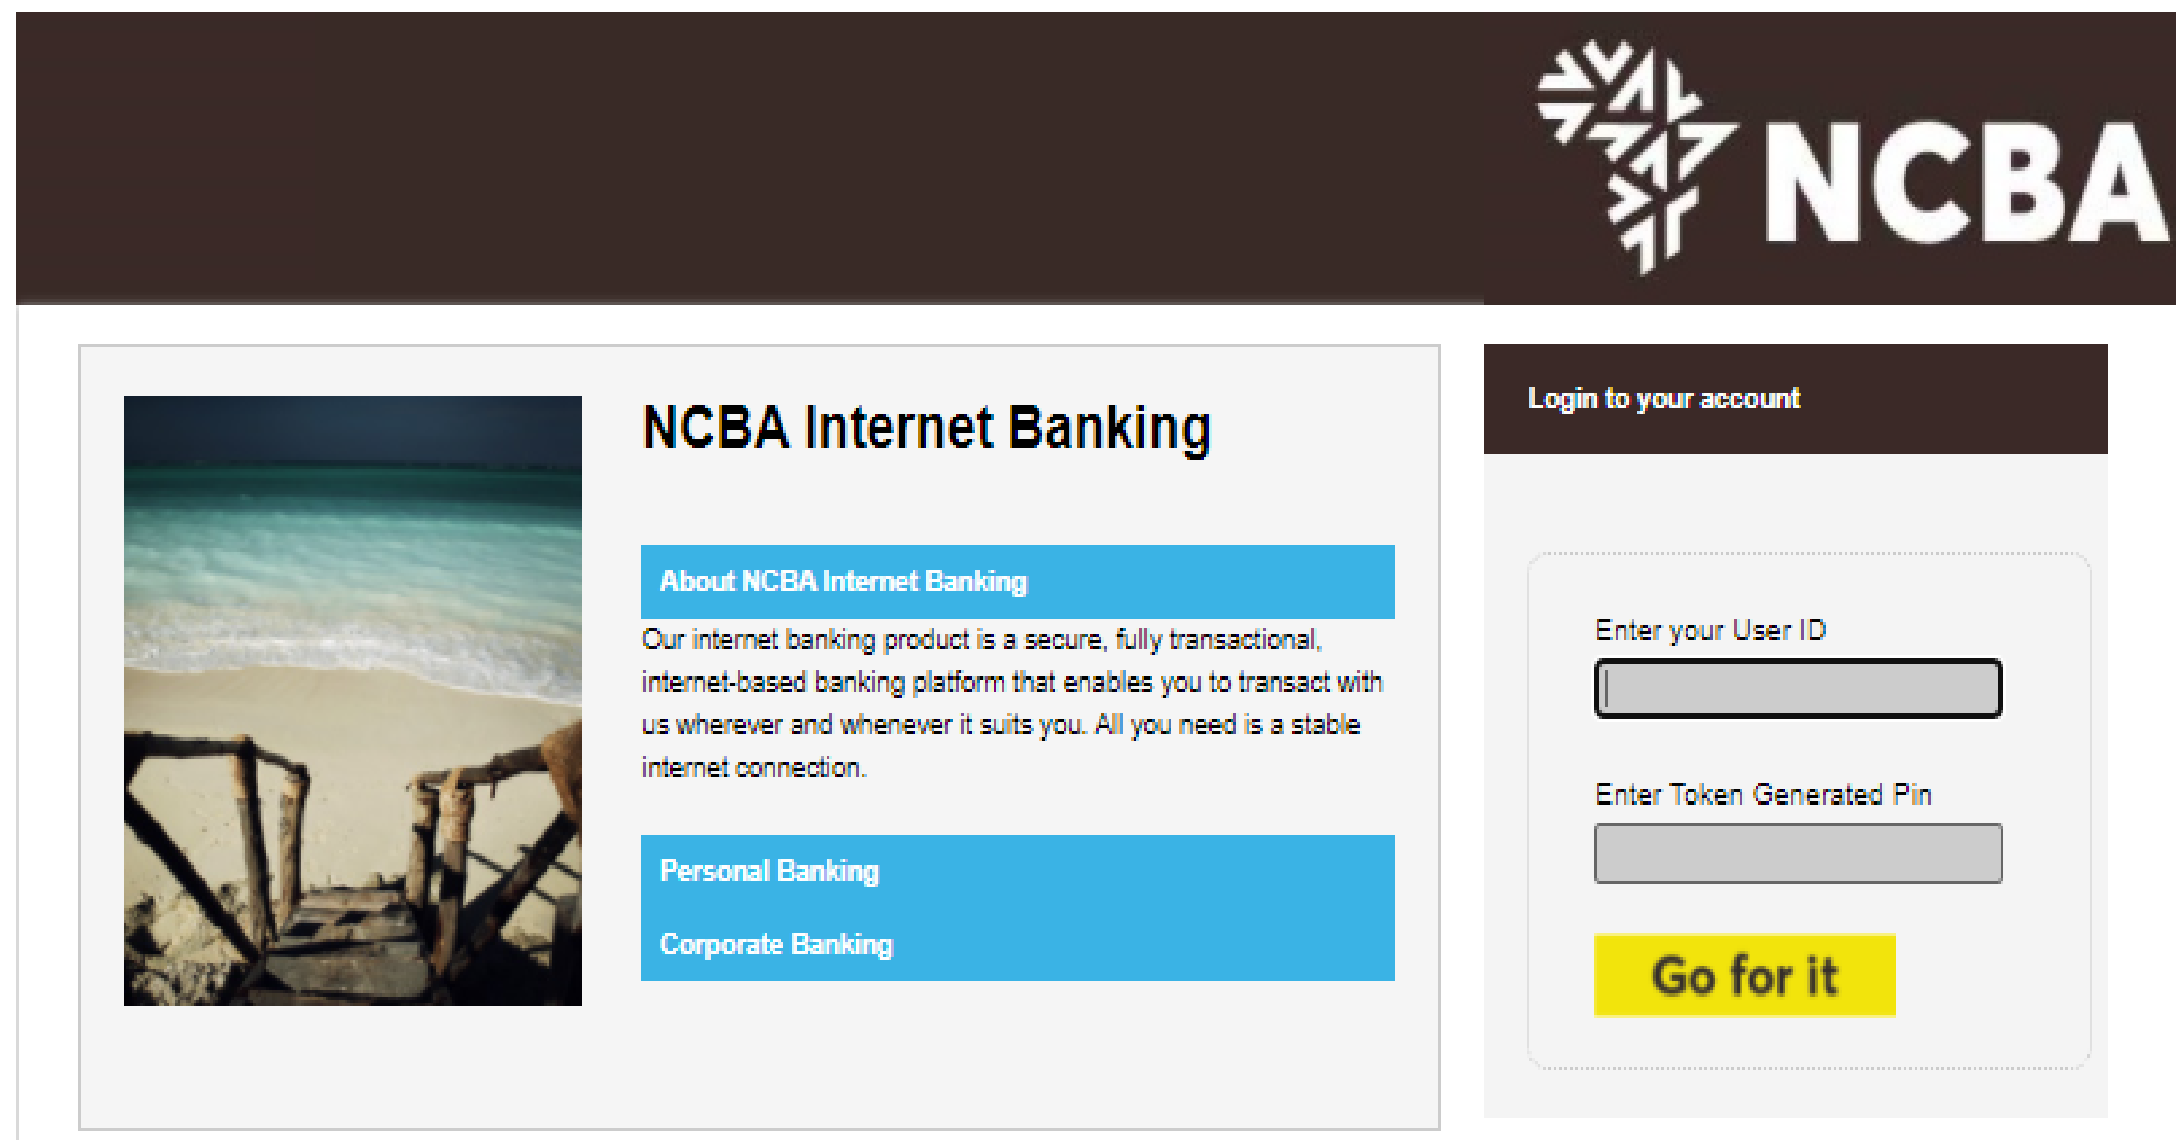

- Upon consolidation, every customer shall be assigned a new account number in the new system that mirrors the old account.
- The Ex NIC account numbers will still be enabled for incoming payments.
- Ex NIC legacy account numbers will not be valid e.g. CA1-100-000-308
- Historical statements will not be available post consolidation.

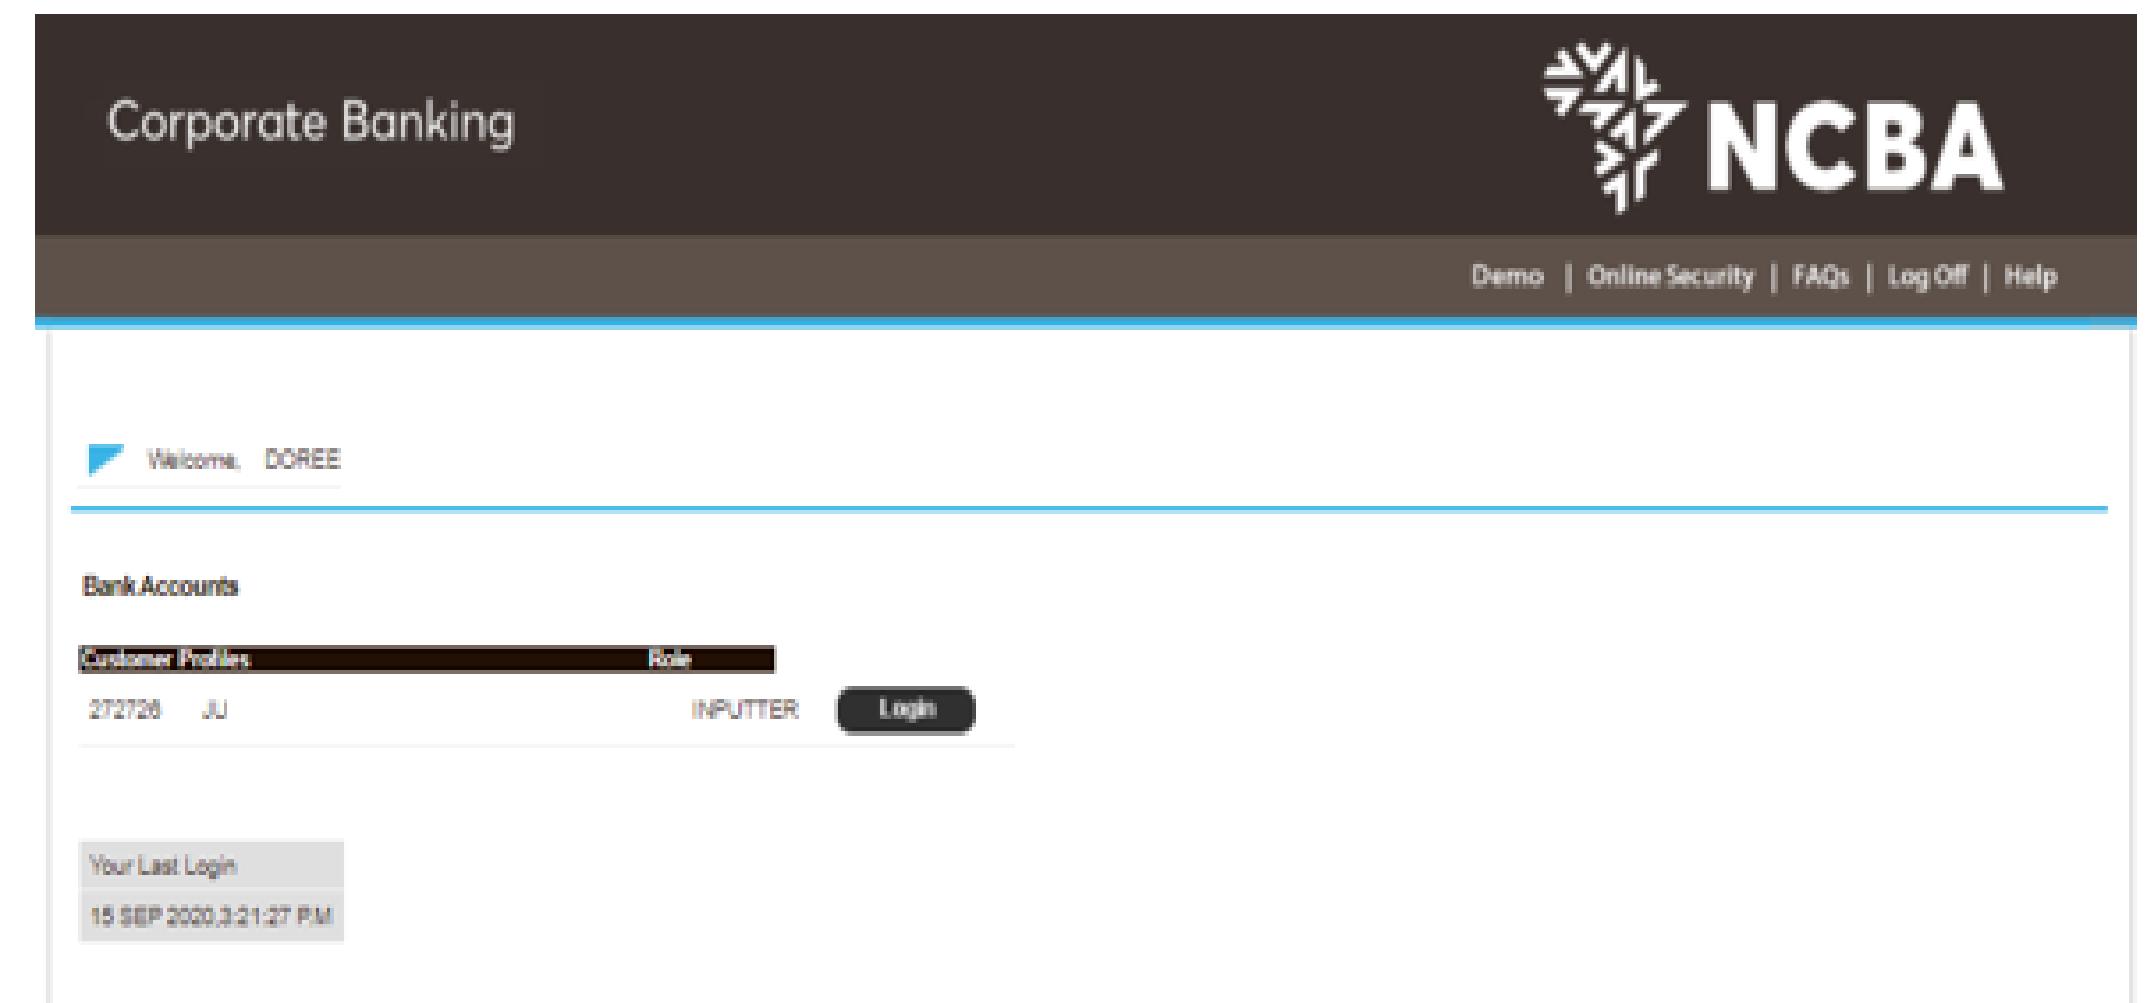

# 4. New Look and Feel

A detailed user manual highlighting key workflows will be provided to aid in interacting with the unified experience platform. Key look and feel areas to note include:

## a) Two level log in

The mockup shows the NCBA Internet Banking landing page. At the top is a dark header with the NCBA logo. Below the header, on the left, is a large image of a beach with driftwood. To the right of the image is the heading "NCBA Internet Banking" and a blue button labeled "About NCBA Internet Banking". Below this is a paragraph of text: "Our internet banking product is a secure, fully transactional, internet-based banking platform that enables you to transact with us wherever and whenever it suits you. All you need is a stable internet connection." Below the text are two blue buttons: "Personal Banking" and "Corporate Banking". On the right side of the landing page is a "Login to your account" section with a dark header. It contains two input fields: "Enter your User ID" and "Enter Token Generated Pin". Below these fields is a yellow button labeled "Go for it".

The mockup shows the NCBA Corporate Banking user interface. At the top is a dark header with "Corporate Banking" on the left and the NCBA logo on the right. Below the header is a navigation bar with links: "Demo", "Online Security", "FAQs", "Log Off", and "Help". Below the navigation bar is a white area with a blue header "Welcome, DOREE". Below this is a section titled "BankAccounts" with a table of "Customer Profiles". The table has columns for "Customer Profiles" and "Role". The first row shows "272726" under "Customer Profiles" and "JU" under "Role". To the right of the table is a "Login" button. Below the table is a section titled "Your Last Login" with a grey box containing the text "15 SEP 2020, 3:21:27 PM".

# New Look and Feel

## b) Landing Page

Customer position menu – sum of total deposit and loans in desired currency per account.

The screenshot displays the NCBA Corporate Banking interface. At the top, there is a dark header with the 'Corporate Banking' text on the left and the NCBA logo on the right. Below the header is a navigation bar with links for 'Demo', 'Online Security', 'FAQs', 'Log Off', and 'Help'. The main content area features a welcome message 'Welcome, DOREE' and a primary navigation menu with options like 'Home Page', 'My Products', 'Transfer Money', 'Cheque Services', 'Card Services', 'Alerts', 'Bulk Payments', 'Customer Service', and 'Contacts'. The 'Home Page' is currently selected. Underneath, there is a sub-menu with 'Customer Position', 'Last Five Transactions', 'Pending Transactions', and 'Messages'. The 'Customer Position' option is active, leading to a 'Customer Position Summary' page. This page includes a 'Currency' dropdown menu and a 'Find' button. The main data is presented in a table with columns for 'Category Description', 'Credits', and 'Debits'. A 'View Details' button is located next to the first row of data.

Category Description	Credits	Debits
1005 Business Current Account	165,749.89	0.00
Total Value	165,772.89	0.00
Total Customer Value	165,772.89

# Hard Token Registration Process

# Step 1: Enter Your User ID

## STEP 1 - First Time Login

You have received your UserID and Token from the bank.  
In order for you to log into Internet Banking, you will be required to register your token by following the steps below.

User ID

This is the \*\* Character ID for Online Banking Services

Go for it

# Step 2: One Time Password

Enter a One-Time-Password (OTP) that is sent to your registered mobile number or email address and click Go For it

## STEP 2 - Authenticate

Enter the One Time Password from the SMS sent to your registered mobile phone.

One Time Password

**Resend**

please call the bank if you do not receive your SMS message

**Go for it**

**Cancel**

# Step 3: To Register a Hard Token

Select Hard and input the serial number of the hard token and click submit. (The hard token Serial Number is indicated at the back of the token )

## STEP 3 - Register Token

On application for Internet Banking, you were provided with a Token. This will generate One Time Passwords for login and transaction signing. In order to tie this device to your profile, complete the step below

If you do not have a Hard Token, you may use HID Approve instead. Kindly enter the device serial number of Hard Token or select HID Approve and click Submit

Activate HID Approve  HID Approve

Device Serial Number  Hard

0921311788

This is the serial number (S/N) of your Hard token device.

**Go for it**

**Cancel**

# Step 4: Validate OTP Generated from your Token

## STEP 3 - Change Token PIN or One Time Password Login

You can now turn on your Hard token and login using the default PIN provided.

You will be requested to change your PIN.  
Enter your new PIN and Confirm.

Your PIN is now changed.  
Kindly note your new token PIN in a secure place

Select the OK button on the PIN, a One Time Password will be displayed, enter this below.

If it is a HID Approve token, generate One Time Password in the mobile application and enter it below.

One Time Password

[Cancel](#)

# Step 5: Set Security Questions

# HID Approve (Soft Token)

# What is a HID Approve Token?

- HID Approve is a multi-factor authentication solution from HID Global that delivers a simple and secure way for log in, transaction validation and authentication using Push notification.
- HID Approve enables generation of one-time secure codes for strong authentication for offline use.
- Secure activation by scanning a QR code.

## Current HID Soft Token

## New HID approve

# What is a QR Code?

- A QR Code is a machine-readable optical label that contains information about the item to which it is attached.
- A QR code consists of black squares arranged in a square grid on a white background and often contains data for a tracker that points to a website or application.

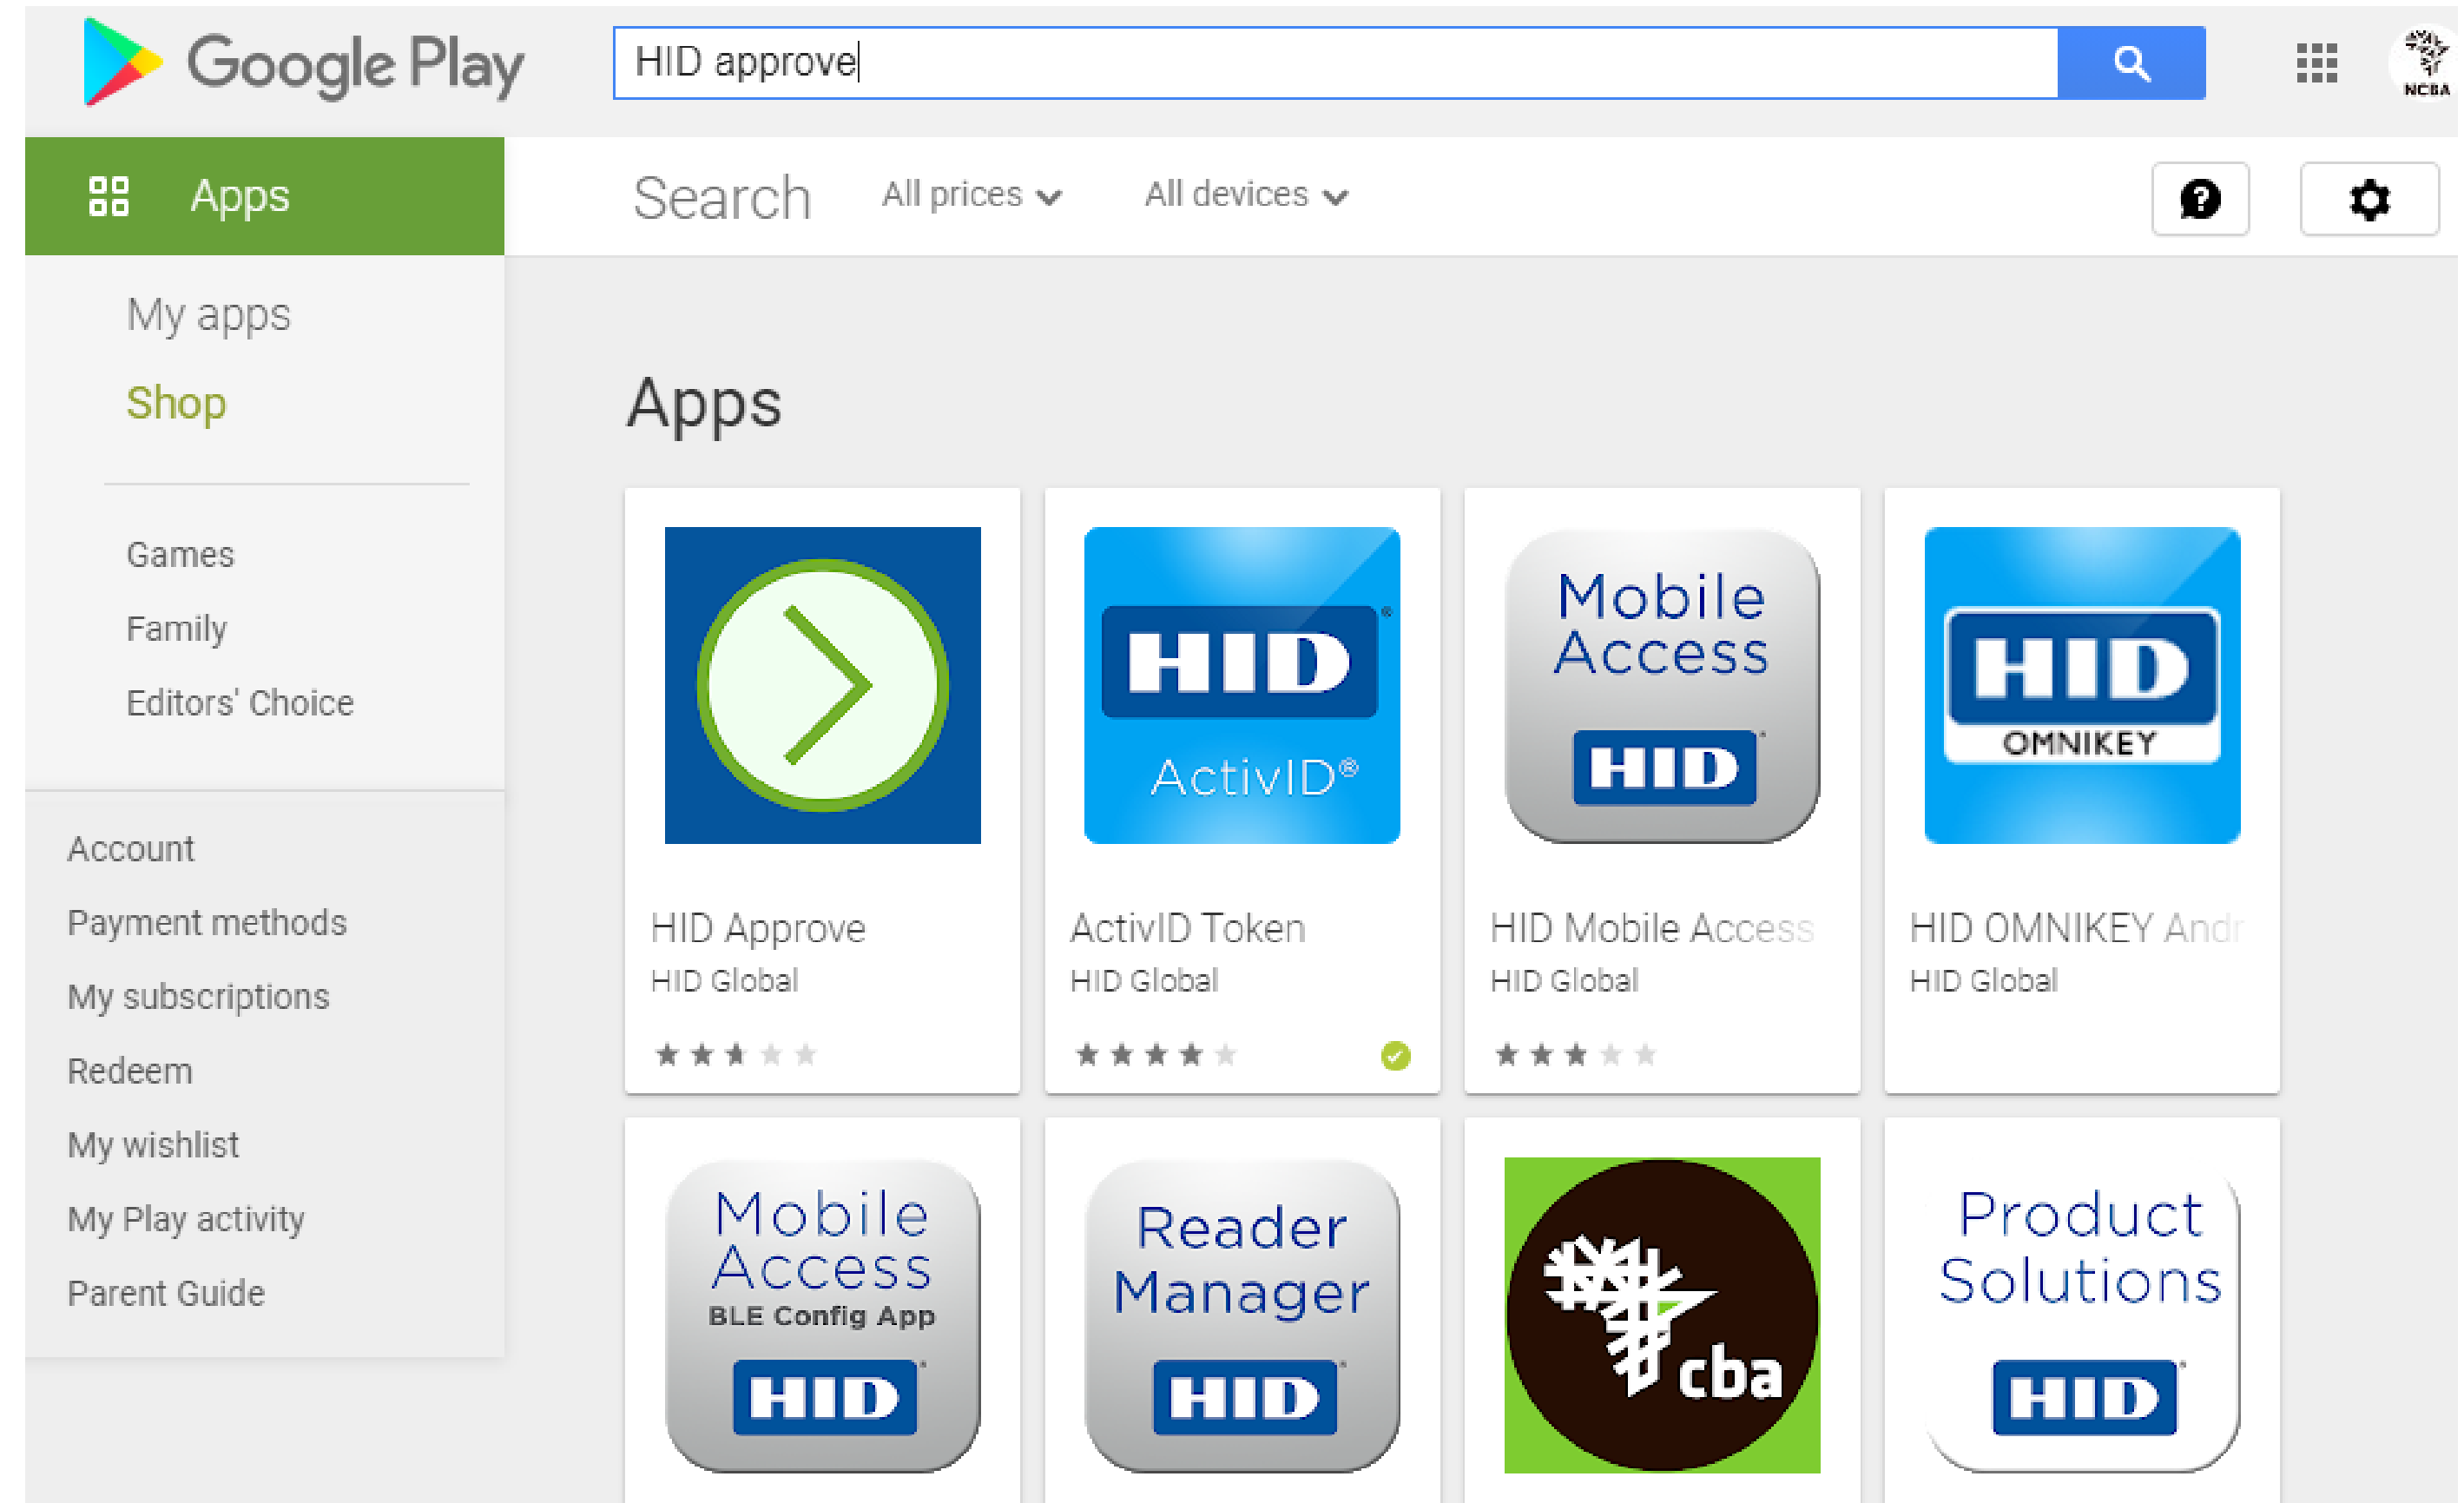

# HID Approve Registration Process

# HID Approve Download

- HID Approve available on Google Play store or App store

# Step 1: Login to the SSP Portal

The SSP Portal is available on the Internet Banking page.

Click on Token Registration

The screenshot shows the NCBA Internet Banking portal. At the top right is the NCBA logo. The main content area is divided into two columns. The left column features a banner for 'NCBA Internet Banking' with a beach image, a blue box for 'About NCBA Internet Banking' describing the secure, fully transactional platform, and two more blue boxes for 'Personal Banking' and 'Corporate Banking'. Below this is a security warning section titled 'Protect yourself from online fraud' with contact information. The right column is titled 'Login to your account' and contains two input fields: 'Enter your User ID' and 'Enter Token Generated Pin', followed by a yellow 'Go for it' button. Below the login section is a dark grey box labeled 'Self Service Portal (SSP)' which is highlighted with a red border. Underneath this box are three links: 'Not yet registered?' with a 'Sign Up' button, 'Token Registration?' with a 'Log In' button (also highlighted with a red border), and 'Manage Tokens?' with a 'Log In' button.

# Step 2: Enter Your User ID

## STEP 1 - First Time Login

You have received your UserID and Token from the bank.

# Frequently Asked Questions

# Questions and Answers

Question	Answer
I have two tokens. The HID token on my phone and the physical one. Since I have a personal account and a company account. How will this work?	The HID Approve token supports multiple profile access. This means that you will be able to link and access your personal and company profile from one HID Approve token. The physical token will continue working as is today.
Will it be completely impossible to create a beneficiary list?	No. The current beneficiary creation and approval will be available on NCBA Online
Will our beneficiaries be transferred to the new system?	Yes. All your existing beneficiary templates will be transferred to the revamped NCBA Online platform
I have both Company Account and Personal Account on Online Banking. Will I be able to merge and view both on the same online banking page?	The setup for Personal and Company account is different . As such we cannot merge and view both accounts on one online banking page. You will still be required to use the 2 different usernames to login to respective accounts.
What is the new RTGS name under the transfer money	Transfer to local bank - Domestic Swift
Will we be able to create new beneficiaries?	Yes. The beneficiary set up and approval will be availed on NCBA Online.
Will the existing beneficiary list be transferred automatically to new system?	Yes. All your existing beneficiary templates will be transferred to the revamped NCBA Online platform
Will corporate accounts for NCBA and ex-NIC base numbers be the same?	No. The Ex- NIC base numbers will be different from the NCBA base numbers
What are these tokens am a bit confused	Tokens are devices that are used to generate security codes to login to your internet banking profile. You can either have a Physical/hard token which you collect at any of our branches. Or you can have a soft token which you download on your phone or PC/laptop

# Questions and Answers

Question	Answer
Do we need to change or update the hard tokens we currently have?	No. The current hard tokens will work seamlessly with the new NCBA Online platform
Is the hard token the pocket token device?	Yes it is.. It's the small physical gadget that you collect from our branch
We have both NCBA & ex-NIC accounts. question is whether the new numbers will have same base no.	No. The Ex- NIC base numbers will be different from the NCBA base numbers
Will I be able to log in on Monday without registration of my current Hard token?	Yes
Does this mean we have to uninstall the HID soft token that we currently have?	Yes. The current HID ActiveID token will not work effective 21/09/2020. You will be required to download the New HID Approve Token
Is the hard token registration for new token device or for both new and existing devices	Hard token registration will apply for new hard tokens. The existing ones do not require registration
Shall we still use the NIC online banking platform?	No. The Niconline platform will not be available for use from 18/09/2020
Will our NIC Account numbers change automatically or do we need to apply? And when will we get the new account numbers?	The ExNIC account numbers will change automatically. No action required from your end.
Is the new registration for soft tokens for only NIC accounts or even NCBA accounts	This only applies to ex-NIC accounts. For NCBA accounts you will continue to use the CBA Soft token , however if in future you will need to register a new soft token, you will be required to download the HID Approve token

# Questions and Answers

Question	Answer
Shall we create our beneficiaries again in the new online platform?	No. The existing beneficiaries on NIC Online will be available on the NCBA Internet Banking platform
Internet Banking URL link	<a href="https://ke.ncbagroup.com/system-upgrade/">https://ke.ncbagroup.com/system-upgrade/</a>
During the upgrade will we still be able to receive payments done to our NIC accounts	Yes, payments will be received but will only be credited to your account on Monday, 21st Sept
What number should we call if we get stuck?	You can reach us on <a href="mailto:cashmanagement@ncbagroup.com">cashmanagement@ncbagroup.com</a> or on 0711056444
Does it mean that On Monday the online statements will only have balance b/f?	Yes.
What of the cheques issued today to clients of different banks will they be credited tomorrow to the clients account?	All cheques that had been presented to the bank by End of Day 17th Sept were paid. Any cheques presented on 18th Sept will be paid but, however, will appear on your Monday 21st Sept statement
Can I have two approval tokens ? What do we need?	The HID Approve token supports multiple profile access. This means that you will be able to link and access more than one profiles from one HID Approve token.
Is it possible to set a limit to what an approve can authorize?	Yes it is. We would require signed instruction advising the bank on what limit to map to different approvers
What happens when suppliers pay us using our current NIC bank Account numbers? Shall we receive the money or do we have to contact them and give them our new Account numbers?	Suppliers/Buyers will still be able to pay into your accounts using the NIC account numbers. They have been maintained as alternate account numbers in the system

# Questions and Answers

Question	Answer
What about payments done by our customers using the ex nic paybill to our current account. Does it mean the payments will not go through?	The payments done through the ex-NIC paybill will be successful. However the bank has adopted the official paybill 880100. This is the paybill that will be used going forward
Does the maximum of 3 tokens include both the soft and hard token?	Yes it does
Will this new system integrate with company ERPs like Microsoft Dynamics or QuickBooks Online?	Yes it will
Will the offline device still work or you will give us new device for token generation?	The HID Active ID token will no longer be used to login to your internet banking platform from 21st Sept. One will be required to download the new HID Approve token
what do you mean by historical statement?	These are statements from 17th Sept 2020 going backwards. These statements will not be available on the new internet banking platform
I have one personal account and 4 business accounts. Will i get one user name and will all the five accounts appear on my profile?	The personal accounts and business accounts cannot be viewed under one Username. However you are able to view all your 4 business accounts under one username. For this we will require instructions from yourself advising the bank on which accounts to map under one Username
Will we have to input the beneficiaries details again in the new platform or it will be transferred from the current platform?	All your maintained beneficiaries will be migrated to the new online banking platform
How do we print the historical statements?	Kindly reach out to the bank and you will be provided with the statements

# Questions and Answers

Question	Answer
what happens to CBAConnect - will it still be there	Yes, NCBAConnect will still be available
What is the name of the app for a soft token to be able to download to your phone	HID Approve Token
Our company has over 50 accounts at NCBA does that mean i will not be able to access all 50 accounts when i log in to the system?	You will be able to view all your accounts on the new internet banking platform as you have been viewing them on NIC online
Where do you get the invite code on the app?	The invite code is available on the Self Service Portal
Will there be a special format for bulk payments?	Bulk templates formats will not change.
Will the change of account numbers, need to be communicated to the clients or will the clients be able to use the current account numbers to make payments in the account.	The NIC account numbers will be maintained as alternate account numbers and they can still be used to receive payments
Will the CBA accounts now be accessible on this new platform, do i still need to use the CBA token to log in?	The CBA Accounts will be available on the system that you have been accessing either Internet banking or NCBAConnect. You will continue to use the CBAsoft token to login
Upto how old can the bank print for us the historical statements?	Upto to 6 months
How are we to advise the bank on collapsing the accounts to a profile, is there a form for this?	We currently do not have a format to make this request. Kindly issue instructions at any of our branches. The instructions should be signed as per the account mandate

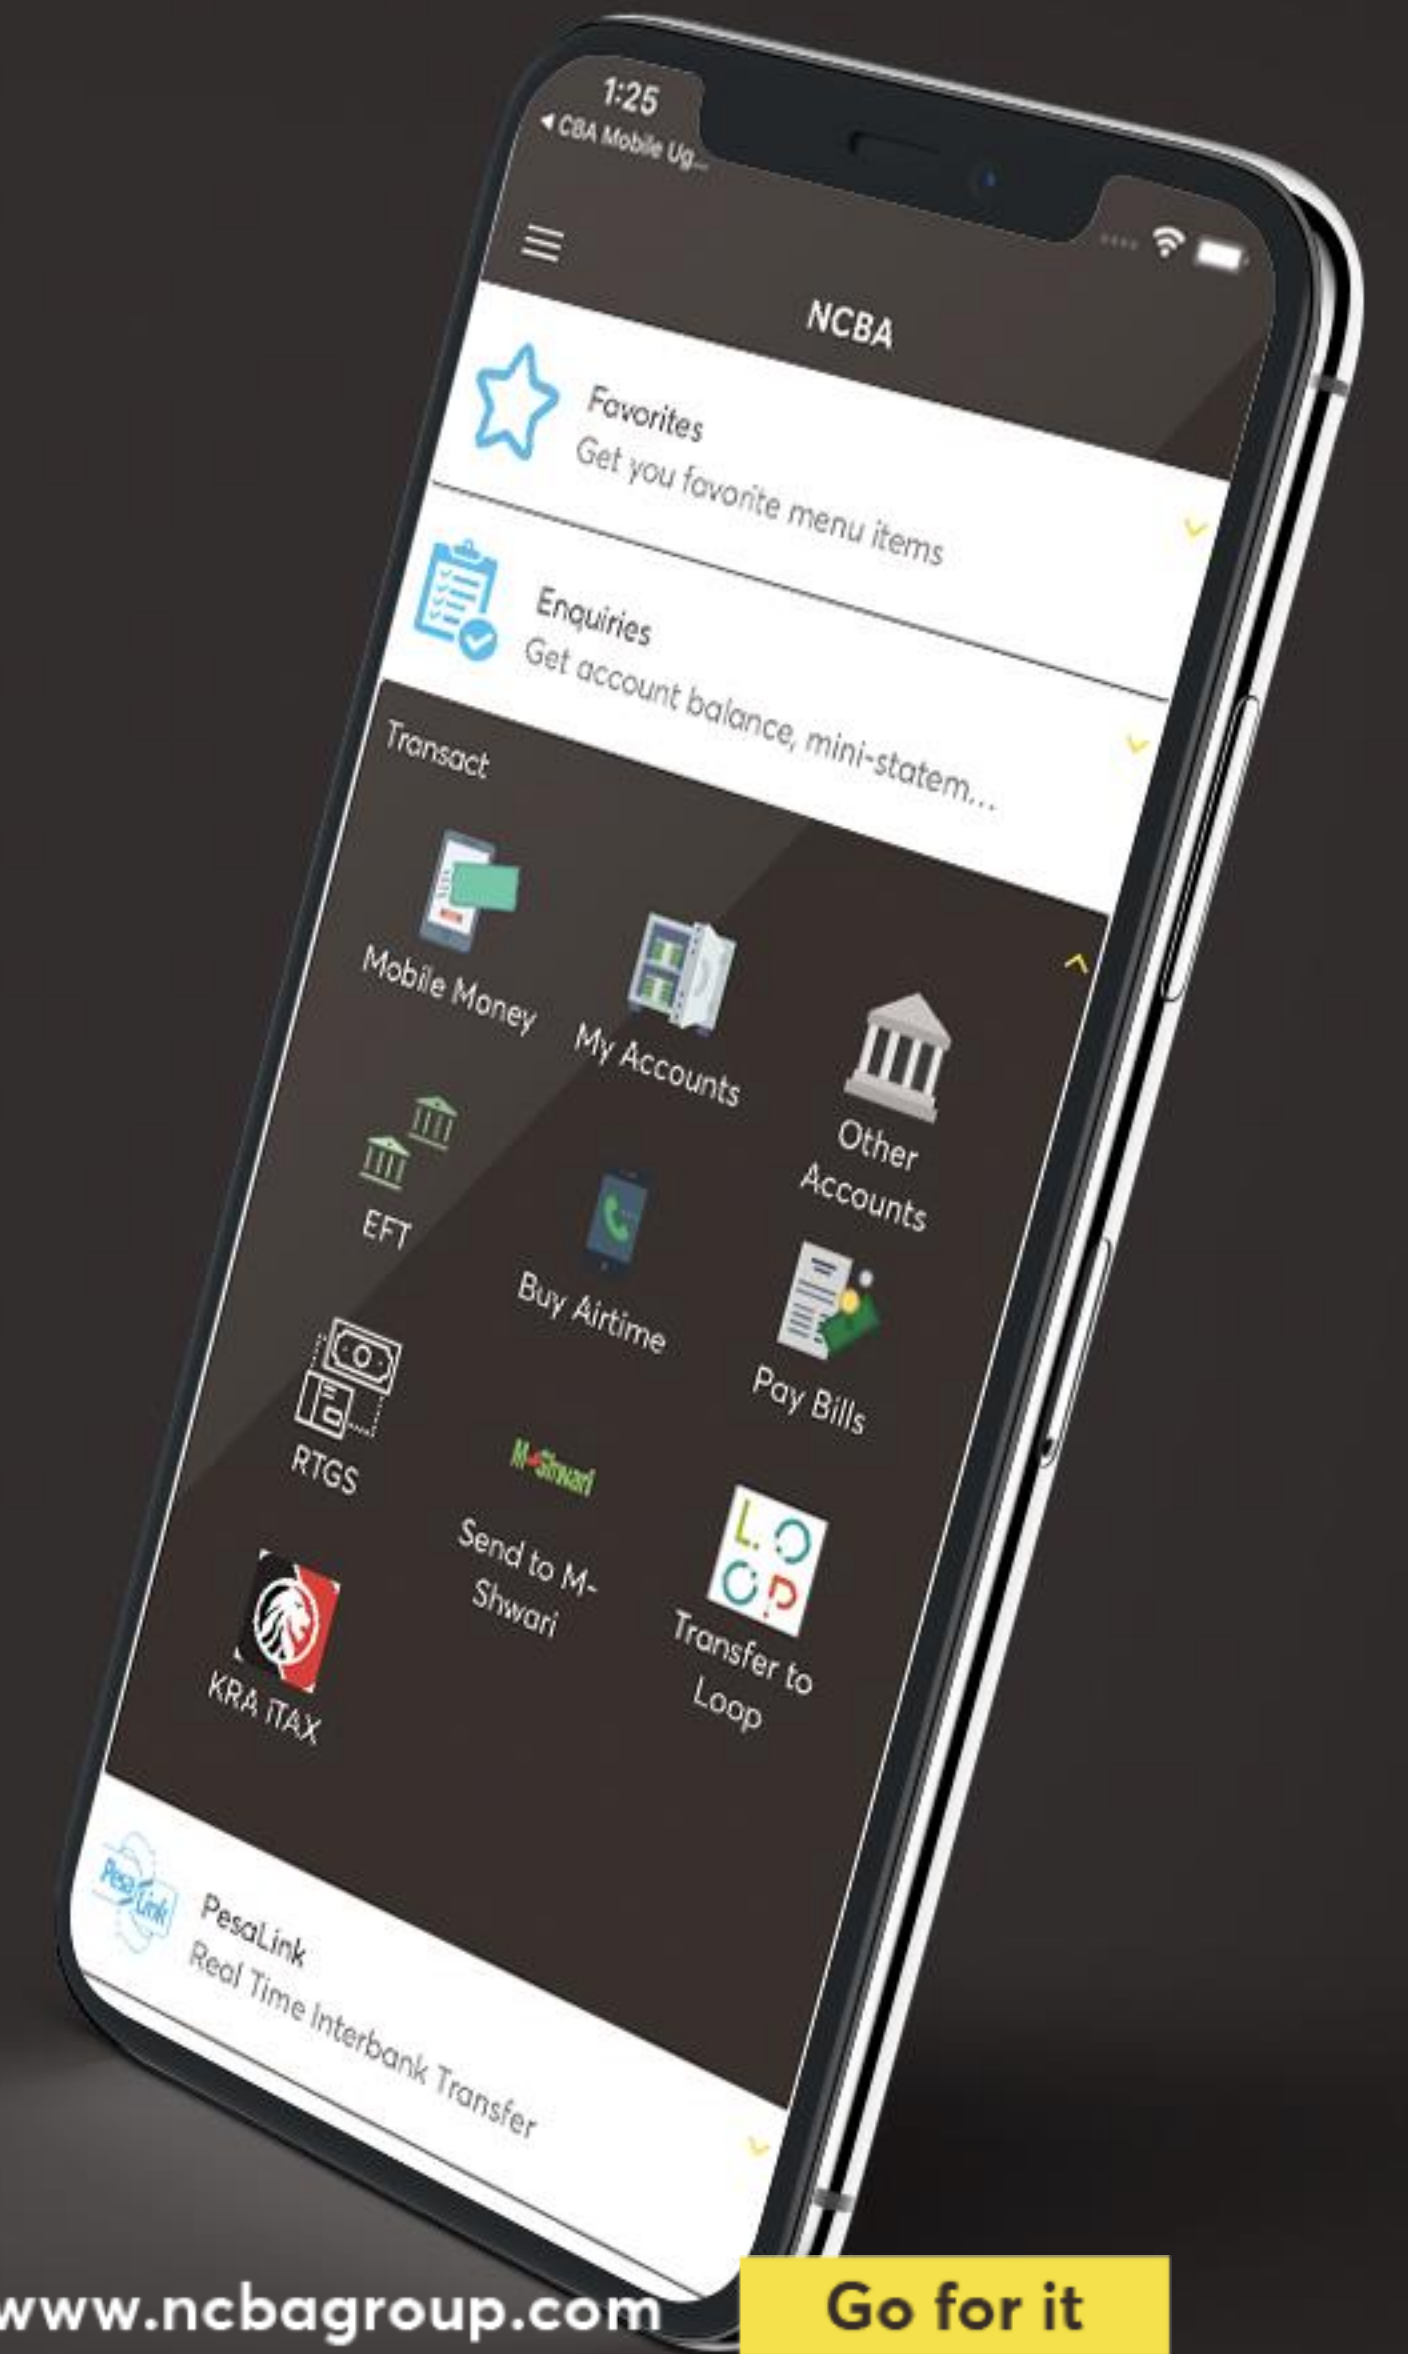

# Questions and Answers

Question	Answer
Do you still have pesalink - It is not visible on the domestic transfer	Pesalink is currently not available on the Corporate profile under NCBA Internet Banking . It is only available on the Personal profile. This payment option will however be availed soon
For the existing token if I have forgotten the answers to the security questions how can the bank assist	Kindly reach out to the bank either via email or a phone call and the security questions will be reset
What happens if someone forgets the security questions or answers?	Kindly reach out to the bank either via email or a phone call and the security questions will be reset
If I have two phones can I download the soft token on both?	Yes you can, you are allowed upto a maximum of 3 tokens on one profile
What happens when one's phone is stolen.....will s/he be required to register for the soft token again?	If your phone is stolen, the 1st step is to login to the Self Service Portal and unassign/remove the token from your profile. You will then proceed to download a new HID Approve token on your new device and register it on the Self Service portal
If I currently possess hard tokens, can I substitute this with soft tokens in the new system?	Yes you can register the HID Approve token. However you will still be able to login using the hard tokens
Can we set up the soft token immediately?	Yes you can register the HID Approve token
Have the system for uploading bulk payments changed or do we still need to input in the file all the bank details of the client before uplaoding the file for the payments?	The processng of preparing bulk files and uploading the files in the system will remain as is on NIC Online
Can we create preformats and use that for uploading the file and payments?	This is not possible. You will use the defined and existing bulk payment formats
